Medical Record Sharing

Summary Care Record

Contains details of your key health information – medications, allergies and adverse reactions. They are accessible to authorised healthcare staff in A&E throughout England.

This S.C.R can be enhanced to include your active problems if you if you consent.

Please **tick** the “express” box below if you would like this this.

You will be always be asked your permission before anybody looks at your summary care record.

If you would like your Summary Care Record Enhanced, please tick here

If you **DO NOT** want to have a Summary Care Record, please tick here

Medical Care Records - Allows your complete GP medical record to be made available to authorised healthcare professionals, involved in your care. You will always be asked your permission before anybody looks at your shared medical record. **If you DO NOT want to share your GP record please tick here**

The Care.data Programme - Collates information about you and the care you receive. It links information from all the different places where you receive care, such as your GP, hospital, and community services, to help them provide a full picture of your medical needs and the care you are receiving. This data is made available to NHS Commissioners so that they can design integrated services and is shared with third parties for research purposes. To opt out please ask reception for a leaflet.
